Dear Sir/Mrs

2014 JUL 24 A 10:50

I'm scheduled to go to a Milwaukee $\frac{1}{2}$ way house January 6 2015. Because of health problems I request a shorter (3 month) $\frac{1}{2}$ period only to find while here a (lump) in lung. My request for shorter $\frac{1}{2}$ way was because of Disease Den Mo diagnosed at Mayo of Rock greatly affecting lungs 367. Vascular prompting a move south Belize lack of tolerance to cold weather

Now I asked for the 6 months to be able to doctor at Mayo (The lump and underlying DM PM)

Would it be possible to use the Jamesville $\frac{1}{2}$ way (closer to Mayo)

Dear Sir/Ms.

This is regarding a health problem, to make you aware of it and ask for a relocation to (Jamesville) or Jamesville because it's closer to Mayo clinic, Mayo because they managed to finally diagnose my disease, Dermatomyositis/polyomyositis.

Here at first I wanted a shorter 1/2 way house only to be told while here they now found a (lump) in my lung, prompting this request. I've save enough money for insurance and really need to return to my doctor at Mayo, they were the only one to discover the disease after seeing many other clinics.

The illness left me with 36% of my lungs destroyed capularys, weak and cold.
